

BISBEE DAILY REVIEW

VOLUME V.

BISBEE, ARIZONA, FRIDAY MORNING, JANUARY 17, 1902

NUMBER 203

The Copper Queen Store.

Royal Tailoring at Reduced Prices

254 styles of suitings have been told to "move on" by the Royal Tailors of Chicago.

Worsteds, chevots, Scotchies, velour cassimers, serges, undressed worsteds—all are feeling the prod of reduced prices.

\$16.00 to \$28.00 for made-to-your-measure suits that were \$17.00 to \$40.00 a few days ago.

The lower price means no difference in workmanship, or quality of linings—and our guarantee of a perfect fit applies as forcibly as though you paid the regular price.

These lower prices prevail all during January, but already we have received "our lists." The earlier you make selection the more patterns you have to select from.

Choice 28 Styles Fancy Vests to Measure, \$4.00.

Worsteds, silks, silk velvets for fancy vests—all have been reduced to one uniform price, and that \$4.00. Some of the kinds were formerly as much as \$9.00. 28 styles to choose from, and no matter which you choose—but one price, \$4.00. Not ready made, but made to order, remember.

NOW!

WHEN YOU COME TO THINK OF IT!

You ought to have a pair of new shoes, and if you will come up and see the new ones we just received straight from the factory, and the nice easy price that goes with them, you will certainly be wearing one of those glad smiles that you always wear when you have on a swell pair of shoes. And, by the way, don't forget that we have a dandy line of hats, too, as well as anything else in Gentlemen's Furnishings.

Having Settled

in your quiet homes and Xmas and New Year are past, read your paper and meditate. "Well, I want a time-keeper for my wife; and I will get her a ring (as this is something I forgot), and for the children and convenience of the family I will get a nice mantle clock that chimes the hours and tells the time for school." A kind reminder for all. You will find a nice line of

WATCHES,

DIAMONDS,

CLOCKS

and JEWELRY

always on hand. Call and investigate prices; it will make you think you are in Chicago. But still in Bisbee daily with

Underground Battle In Independence Mines.

Victor, Colo., Jan. 16.—A number of ore thieves were discovered at four o'clock this morning in the Independence mine. Officers descended the shaft and opened fire which the thieves returned. Five hundred feet underground a fierce battle raged. One officer and one robber were fatally shot. Suddenly the thieves turned off the lights in the mine, as they were familiar with the workings, they escaped. The ore robbery has been going on for some time. Intense excitement prevails tonight.

QUIET AT CANANEA

Most of the Men Return To Work.

One Hundred Men Draw Their Time and Start for the United States.

Advices from the Cananea yesterday were to the effect that quiet and peace prevailed, and that most of the miners had reconsidered their action and returned to work.

A REVIEW man made diligent inquiry yesterday in an endeavor to get the particulars of the walkout on the part of the miners and gathered the following:

For several months past "Billy" Reed has been the night shift boss at the Capato mine. A few weeks ago a brother of Reed's arrived from Montana and also accepted a position as shift boss. Almost from the date of his arrival he discharged a score of men and it is said that in five days he discharged more miners than any previous boss had done in a year's time.

"Doc" Lambert was the boss of the timbermen, but on Tuesday night, Reed entered the Capato mine and discharged some of the timbermen, over the head of Lambert. This action was resented by the night shift and they stated their grievance to Asst. Superintendent McHenry. He refused to interfere and the night shift walked out. Monday morning when the day shift appeared for work they were informed of the status of affairs and they in turn refused to enter the mine and a committee waited on Supt. Jas. Kirk and Gen. Mgr. Geo. Mitchell. These officers told the miners that one shift boss had as much authority as another and refused to interfere in the matter and set 4 p. m. of that day as the time for the men to resume work or else forfeit their positions.

As a result about two-thirds of the men returned to work and the remainder drew their time and started for the United States.

This is the first trouble between employer and employees that has occurred at Cananea. Miners receive \$3.50 and \$4.00 for eight hours work and the present trouble was brought about by the discharging of certain men by shift boss Reed.

Gorgeous Spectacle Tinselled Pageantry

London, Jan. 16.—A more gorgeous spectacle of tinselled pageantry has never been witnessed by the present generation of Londoners than the procession and ceremonies attendant today on the opening of the second session of King Edward's parliament. The programme was practically the same as that of last February, but owing to the fact that court and country are no longer in mourning for Queen Victoria there was a display of color and splendor totally absent from the ceremonies last year.

Montreal in Darkness Electric Plant Burned

Montreal, Jan. 16.—Fire destroyed the works of the electric light company this morning. The city is in absolute darkness. This condition of affairs must continue some time, as there is no duplicate plant. The loss is enormous.

Wheat Crop Puzzling

Topeka, Kan., Jan. 16.—The wheat movement in Kansas is very puzzling. The railroad reports show that through the wheat belt not half as much grain has been brought in for shipment as at this date a year ago, despite the fact that the yield this year is much greater. The same conditions are reported to exist over most of the middle west, Nebraska, and Oklahoma, and parts of Missouri and Iowa. The condition is an abnormal one and much disturbance to trade is feared as a result.

Chinese Minister

Guest of Honor

Philadelphia, Jan. 16.—Wu Ting Fang, the Chinese minister, arrived here from Washington this afternoon to be the guest of honor at the annual banquet tonight of the Clover club, Philadelphia's famous organization of newspaper men. Many persons of distinction will be among Minister Wu's fellow guests, among the number being Lieutenant General Miles, Postmaster General Smith and Senator Hanna.

The Same Scaffold

Does Two Brothers

Pittsburg, Pa., Jan. 16.—Edward Biddle, whose brother "Jack" was executed here day before yesterday, was hanged on the same scaffold today in the Allegheny county jail. The two were to have been hanged at the same time, but a change was made owing to sentimental objections. The crime of the two brothers was the murder of Thomas D. Kahney of Mount Washington April 12, 1901.

Complication of

French Government.

Paris, Jan. 16.—The French government this morning cabled to the minister at Caracas insisting that M. Seccrest, who left Bordeaux on the French liner be allowed to land. This will probably be made a test case and lead to friction. If so the American government declines to allow the Frenchmen to enter upon its shores.

Philippine Tariff

Bill Discussed.

Washington, Jan. 16.—The Senate devoted today to routine business then adjourned till next Monday. The House discussed the Philippine tariff bill and a proposition favored by the committee to reduce the tariff twenty five per cent was considered and expected to be favorably acted upon when the house meets again Saturday.

King Alphonse

Coming of Age.

Washington, Jan. 16.—The President today appointed Dr. Curry of Virginia as special ambassador and minister plenipotentiary to Spain on the occasion of young King Alphonse's coming of age. Dr. Curry was formerly minister to Spain.

Train Robbery

Near Fort Smith

Ft. Smith, Ark., Jan. 16.—Seven masked men robbed the Kansas City Southern train this morning. They secured \$2,000 and many registered letters. The United States marshals are after them.

Daniels on Ragged Edge.

Washington, D. C., Jan. 16.—Protests against the confirmation of Ben Daniels as marshal continue to pour in from Arizona.

Most of these are addressed to Senator Hoar, but senators who have personal acquaintances in Arizona are also addressed.

The feeling is growing here that Daniels will not be confirmed. It is understood the president has been urged by senators to withdraw the nomination and the intimations have been made to him that the senate will not confirm the appointment.

One Hundred Marines Sail

San Francisco, Jan. 16.—A force of 100 marines sailed today for Manila to relieve those whose terms of service in the far east have expired. The draft is in charge of eight officers, one from each of the principal navy yards and naval stations of the country.

Surveyors at Work

For the Calumet and Arizona Company at Douglas

On yesterday's train a party of surveyors departed for Douglas and for the next few days will be engaged in surveying for a spur from the track of the El Paso & Southwestern R'y., to the Smelter site selected by the Calumet & Arizona company.

In the party was Surveyor Wilson of the Copper Queen staff, who does the railroad surveying at points adjacent to Bisbee. Mr. Weller, who will be the superintendent of the new smelter, was also in the party, which included Supt. L. L. Merrill and Secretary Gordon R. Campbell.

The site of the smelters of the Calumet & Arizona company, upon which construction work will shortly be commenced, is about one mile from Douglas, and the building of the railroad spur at this time is to enable the company to place on the ground heavy building material.

Mr. Merrill and Mr. Campbell returned on the afternoon train.

Chinese Exclusion Bill

Washington, Jan. 16.—The senate committee on immigration today commenced hearings on the Chinese exclusion bill. Among those to be heard within the next day or two are representatives of the southern cotton planters, the Asiatic Association of New York, the Canadian Pacific Railroad company, the Boston & Maine and other New England roads.

Copper Still Unchanged.

Silver 537.8; copper and lead unchanged.

Wizard of the Violin

Jan Kubelik Creating a Sensation in America.

Born the son of a poor gardener and with little money to aid him in his studies, a Bohemian boy has for the past two years been the sensation of the European musical world and is now in this country, repeating the triumphs he scored in Austria, Germany, Italy and England. As yet he has appeared only a few times in this country, but those who have listened to his wonderful violin playing have been held spellbound.

In 1880 young Kubelik was born the son of a Bohemian market gardener and displayed remarkable aptitude in music when a child. His father, who was an amateur musician, made him a violin, and at the age of five all who heard him play were astonished. Through an exceedingly modest circumstances, the elder Kubelik believed his son possessed unusual talents. Enough money was finally raised to place him under the tutelage of Carl Ondrick, the noted violinist. The latter was astounded at the improvement in touch, expression and execution his pupil made, and the lad was placed in the Conservatory of Music at Prague.

The first public appearance of young Kubelik was made three years ago in Vienna. He took his audience by storm, and from that day his success was assured. Since then the young violinist has appeared in many of the large cities in Europe, and his playing has always created a sensation. He made such a remarkable impression with Dr. Jan Richter and his Philharmonic society in London in 1890 that he was commanded to play twice before King Edward, then Prince of Wales. He has been decorated by the kings of Serbia, Roumania and Wurtemberg.

The young musician still has the quaint little violin made by his father as well as several famous ones and uses it in responding to requests. He was brought over to this country to give a series of concerts and, it is said, will receive \$1,000 a concert.

OUR TITLED VISITOR

Duchess of Marlborough to visit America.

The visit of the Duchess of Marlborough to this country is the first she has made since her marriage in 1895, when she went over to England to become mistress of Blenheim castle. Though by several years the youngest of the titled matrons of Europe, outside of royalty, she has made herself, by her dignity and her tact, one of the most popular women in England.

The duchess is an intimate friend of Queen Alexandra, who appointed her to be mistress of the robes. In fact, ever since her marriage the duchess has been preferred by the royal lady, and when the Prince of Wales took his consort to Blenheim three years ago for a visit the friendship which before existed between the queen and the duke's wife ripened at once into an intimacy which has lasted ever since.

For the last few years the Duchess of Marlborough has been little in London society, for the care of her children has kept her home, but now that they are older she will no doubt go out a great deal. She has two boys, one born Sept. 18, 1897, and the other Oct. 14, 1898. The oldest, if he lives, will be the tenth Duke of Marlborough. After spending Christmas and New Year's with her father, William E. Vanderbilt, at his country home, Idle Hour, the Duchess of Marlborough will return to England.

Two Double Regiments Make Fatal Mistake.

New York, Jan. 16.—News reached here this morning that another terrible mistake was made in the Republic of Colombia, whereby two small armies of the Colombian government troops met each other near Dibulo and both assuming the other was a battalion of rebels and insurgents, began firing. The battle raged for several hours. Hundreds were killed and wounded. Then general Folicis, commanding one army, discovered that his opponents were friends and stopped the battle. Two double regiments had gone in search of a body of insurgents and thought they had discovered them when they discovered each other.

\$185,000 DEAL

Calumet and Hecla Add Nine Claims.

The Calumet and Arizona company has recently added nine claims to its already extensive properties at this place and have begun extensive development work. These claims will be worked under the name of The Calumet & Pittsburg company, which is simply another name for the Calumet and Hecla.

The properties recently purchased by the Calumet company was owned by residents of Bisbee, who have held the claims for some years past. Four of the claims were bought of Mike Brophy and Martin O'Hare for \$100,000, ten per cent of which was paid down. The other five claims were owned by Messrs. Shattuck and Letson, and the purchase price was \$85,000.

The work was begun in earnest this week and a shaft will at once be sunk to a depth of 1000 feet. The location is a very desirable one and is in every way a convenient one.

DOUGLAS NEWS

Press Brick Arriving for Copper Queen Big Store

Dr. Sutherland made his weekly visit to the front last Tuesday. The "front" now is sixty miles northeast of Douglas.

A car load of pressed brick, the first of many more yet to follow, for the Copper Queen's big store building was run in on the company's siding last Tuesday.

The Douglas Lumber company, C. A. Overlock manager, received several car loads of lumber, doors, etc., last Tuesday.

The water company have several gangs of laborers on the streets making ready to lay their pipe line. Mains are being laid south to Sixth street and north into the residence part of the city.

BISBEE GETS FOURTH MONEY.

El Paso, Dec. 16.—Decision was rendered this evening in drilling contest. Berg and Johnson, of Bisbee, get fourth money. The prize cup goes to San Pedro, N. M.

From El Paso News:

Probably the chief attraction this morning, amidst an hundred others, was the mining contest in the Little Plaza.

All arrangements had been completed, and promptly at 10 a. m. the drilling contest began. The stone had been elevated to about the height of an ordinary man. Around it was a platform of probably six feet, and around that a circle of ropes. On the platform were congregated the judges, the timekeepers of the contestants and the drillers themselves.

THE FIRST CONTESTANTS.

Andy Johnson and E. Berg of Bisbee began the contest. Stripped to the waist, except for undershirt, they showed they were ready for business. Those who saw their work became so enthusiastic they were willing to bet in their favor against the world. Not a stroke was missed. The hammer came down with the regularity of a steam trip hammer, and the drill was turned with equal regularity. When the old drill was thrown out and a new one was substituted not a fraction of a second was lost, while the change from one pounder to another was made as by clock work. The result of their work, which was often applauded by the onlookers, was 34.5 inches. They retired from the platform amid deafening cheers.

The next couple consisted of Hatch of San Pedro and Mitchell of Chihuahua. It was soon evident they were outclassed. A glancing stroke of the hammer soon largely disabled Hatch, and the final result showed only 27 inches. Then came the Tarr brothers, lately

There is a splendid opening in Douglas for a steam laundry plant. No Chinese allowed to locate here.

Guy McCord, son of Governor McCord of Phoenix, was in Douglas Tuesday and left the same day, going eastward on business for the Arizona Rangers.

A party of Uncle Sam's horse-soldiers, in charge of a corporal, passed through Douglas Monday.

The United States customs officials were engaged Tuesday afternoon disposing of an assortment of confiscated property at auction.

Our post office is too small for present needs. Douglas is no longer a X-road office of the Nasby type, but a live, pushing, progressive town.

Some complaint is made by dealers in wet goods of dull times. Nevertheless, all are sanguine of better times coming.

New structures going up in all parts of the town. This item might be stereotyped for daily use.

Our restaurants are doing good business these days, with all the custom they are able to accommodate.

Business is fairly good in all lines of trade.

United Moderns.

General Organizer Jones is Here.

William R. Jones, the general organizer for the United Moderns of Arizona dropped into Bisbee yesterday and at once proceeded to get acquainted.

Mr. Jones is from the main office at Denver and comes here to reorganize the old lodge that was established last July and which has not been very active of late.

"There is no reason he says why Bisbee should not have a good live lodge of Moderns here that will do credit to any city in the territory. We have over 2,200 members in Arizona and the lodges are all doing well. The United Moderns is a fraternal order called the Flat Premium plan, resembling the Old Line insurance and there is only one other lodge like it. Bisbee should be good for 250 members and I certainly hope to reach that number."

Mr. Jones expects to remain here a month and in the interim will establish lodges in Naco and Douglas. He is wide awake and certainly should do good work for this fraternity.

of Colorado, but now of Globe, Arizona. As soon as they stepped on the platform they were greeted with a round of cheers which would have lifted the clouds had not the latter kindly retired already. All could see that they were athletes, fully prepared to do their work. They responded to the applause by doing the finest work ever seen in the southwest. When time was called they were down 40.3 inches, beating the world's record by three-eighths of an inch.

E. A. Shamberland of San Saba and Ed Malley of Chihuahua formed the fourth team. Their appearance excited considerable enthusiasm, but as they soon ran into a previous hole the contest was adjourned until tomorrow.

The entries in the drilling contest were:

1. Andy Johnson, E. Berg, Bisbee, Ariz.
2. Hatch of San Pedro and Mitchell of Chihuahua, Mex.
3. Tarr brothers of Globe, Ariz.
4. E. A. Chamberland of San Saba and Ed Malley of Chihuahua, Mex.
5. Juan Avallos and Alfredo of Santa Rita, N. M.
6. A. Lundquist and Sam Hoops of Colorado.
7. John Shes and C. McGowan of Bisbee, Ariz.

THE SINGLES.

1. Robert Lyons of Colorado.
2. F. Morales.
3. Dan McGowan of Prescott, Ariz.
4. Juan Avallos of Santa Rita, N. M.
5. Ed Conley of Cripple Creek, Colorado.
6. O. M. King of Bisbee, Ariz.
7. Terdos Vigerilla of San Pedro, Chihuahua, Mex.
